# **GSA SUPPLY CATALOG**

**MAY 1977**

**VOLUME 2**

**This publication is a supplement to the October 1975 issue of Volume 1 of the GSA Supply Catalog, which should be retained for use as the basic reference to the GSA stock program.**

**A current pricelist, item changes and new item descriptions are included in this volume. Also carried are price changes on some furniture items listed in the October 1975 Volume 1, although the new GSA Furniture Catalog is the current, authoritative guide to FSS furniture items.**

**The index of Federal Supply Schedules and alphabetical index references to Schedules are not included in this catalog, since the Schedules program is covered in full in a new, separate publication. See next page.**

**Passages in this Volume 2 outline the reassignment, from GSA to Defense Logistics Agency (DLA), of management responsibility for certain items, which are identified in the NSN index.**

# COMING . . .

## CHANGES IN SOURCES OF SUPPLY

### NOTE TO REQUISITIONERS

To eliminate dual management of items, Defense Logistics Agency (DLA), formerly Defense Supply Agency (DSA), has been named the Government-wide manager of selected items and in some cases, entire classes of items. Effective July 1, 1977, those items must be requisitioned from one of DLA's Defense Supply Centers.

See page v for a more detailed explanation of the change, and page 32 for other instructions.

### FEDERAL SUPPLY SCHEDULES PROGRAM GUIDE

For the convenience of Schedules users, detailed information about that program is contained in a helpful new publication. Included is an index of Federal Supply Schedules, an alphabetical index of Schedules items, and ordering information.

# HOW TO USE THIS CATALOG

## **If you know the National Stock Number (NSN) of an item . . .**

1. Find the number in the NSN index in this issue to obtain price and ordering data.
2. If descriptive information is needed, refer to the indicated page numbers in this catalog or in the GSA Supply Catalog, Volume 1, October 1975.
3. Consult Section 2 for possible descriptive and/or standard pack changes.
4. For requisitioning information, see this catalog and page lxxxii of the GSA Supply Catalog, Volume 1, October 1975.

## **If you know the item name . . .**

1. Find the item in the alphabetical index in this catalog or in the GSA Supply Catalog, Volume 1, October 1975.
2. Index will refer to page location of the item in either this catalog or Volume 1.

## **NOTE TO REQUISITIONERS**

To eliminate dual management, Defense Logistics Agency (DLA), formerly Defense Supply Agency (DSA), has been assigned as the Government-wide manager of selected items and in some cases, entire classes of items. Effective July 1, 1977, these items must be requisitioned from one of DLA's Defense Supply Centers. Refer to page v of this Catalog and the FEDSTRIP Operating Guide for ordering instructions.

## **NOTE TO DoD ACTIVITIES**

GSA supply publications are prepared for civilian agencies. They are issued to DoD activities for informational purposes only. DoD activities should refer to their respective service Management Data Lists (ML's), other service supply publications, or internal issuances before processing requisitions to GSA.

# WHAT IS THE FEDERAL SUPPLY SERVICE?

The Federal Supply Service (FSS), one of the four major line services of the General Services Administration (GSA), is the primary source of procurement and property management for Federal civilian agencies and provides numerous other services and functions.

FSS is responsible for the economical and efficient procurement and supply of a wide range of common-use, commercial type items for the world's largest consumer of these goods, the Federal Government. It accomplishes this task by virtue of several selling programs which assure convenient and money-saving service, regardless of order size. Not only does Federal Supply meet the Government's buying needs, it also sets standards of

quality and performance in all aspects of the supply process—from the actual purchase to consumer delivery.

In addition to the supply function, various services, including the maintenance of a 74,000-vehicle motor pool and negotiation of public utility contracts, are offered to Federal agencies. Other services, such as maintaining emergency defense supplies and assisting in natural disaster relief, aid the entire community.

FSS is also involved in systems designed to enhance product development and to offer agencies the best possible variety of goods to meet operating needs.

## CHANGES IN SOURCES OF SUPPLY WITHIN THE NATIONAL SUPPLY SYSTEM

The National Supply System is designed to eliminate avoidable duplication of procurement and supply functions between the General Services Administration (GSA), Department of Defense (DOD), and other Federal agencies. Its objective is to develop a single, integrated, Government-wide system for the procurement and supply of common-use, commercially available items used by agencies of the Federal Government. To accomplish this, GSA and the Defense Logistics Agency (DLA) have agreed to eliminate the dual management of certain items.

On July 1, 1977, DLA will become the single manager for a selected number of the previously dual-managed items. The DLA Defense Supply Centers will be the supply sources for these items, and will carry them in their Federal Supply Catalog for Civil Agencies. Copies of that catalog can be obtained from:

Defense Logistics Services Center  
Attn.: DLSC-T  
Battle Creek, Michigan 49106

The items for which responsibility is being transferred to DLA are annotated in this catalog. Each of the published items is identified by an "R" (Reassigned) preceding the respective stock number in the NSN index. The nonpublished NSN's transferred to DLA appear on page 111.

Also included in this issue is a list of the Defense Supply Centers and their routing identifier codes, along with a list of the classes of items being transferred to each center. The FEDSTRIP Operating Guide, FPMR 101.26-2, has been revised to provide instructions on ordering from the responsible Defense Supply Center. The affected Defense Supply Centers, routing identifier codes, and the classes of items being transferred are listed on page xvi.

In the event that requisitions are inadvertently sent to GSA rather than to a Defense Supply Center, GSA's Central Requisition Router system will automatically reroute them to the appropriate source of supply.

## Services

### SELF-SERVICE STORES

For day-to-day needs, GSA Self-Service Stores offer convenient, walk-in shopping. With 72 stores coast-to-coast, FSS is able to fill customer orders over the counter at considerable savings through volume purchasing.

Besides providing fresh, quality merchandise and the latest products from depot stock and Federal Supply Schedule contracts, GSA Self-Service Stores offer a spe-

cial buying service to help eliminate time-consuming visits to local commercial stores.

What makes this operation distinctive is its convenient charge service which allows agencies to reduce and simplify their paperwork. Applications for charge plates are available at GSA Self-Service Stores or from regional Customer Service Representatives (see page xv for CSR listing).

## TRANSPORTATION AND PUBLIC UTILITIES

Federal Supply's Office of Transportation and Public Utilities makes a wide range of services available to Federal civilian agencies. The **Transportation Division** is designed to provide an economical and efficient system for transportation and traffic management. It accomplishes this mission through a variety of programs which offer assistance in passenger and freight traffic management, travel and relocation allowance, and household and personal effects management. The **Motor Equipment Division**, in addition to operating the 74,000-vehicle interagency motor pool, offers educational and training programs, defensive driver training courses, and man-

agement studies to insure optimal use of each Government-owned vehicle. Transportation and motor equipment services are available through GSA regional office by contacting the **FSS Transportation Services Division** or **Motor Equipment Services Division**. Negotiation of public utility contracts and consultations on public utility management problems are among services provided by the **Public Utilities Management Division**. The **Transportation Audit Division** performs the audit of transportation payments, a function recently transferred to GSA from the General Accounting Office.

# Interagency Motor Pools

Government agencies are provided the use of various types of vehicles through the centrally managed facilities of the Interagency Motor Pools system.

**RESERVATIONS**—Users must make reservations for the use of motor pool vehicles during business hours at least 24 hours in advance.

**RENTAL**—Commercial vehicles may be obtained under a GSA commercial car rental contract if a motor pool vehicle is not available. The Traveler's Pocket Guide (mailing code OOSS 7502) contains a listing of GSA contracts rental services. It can be obtained by calling COM: 303-234-4195, FTS: 234-4195.

**AUTHORIZATION**—As evidence of authority to obtain motor pool vehicles, motor pool personnel will accept one of the following documents which must show a Billed Office Address Code (a six-digit number) and, if required by user's agency, a chargeable account symbol: 1) Official Travel Authorization specifying use of Government vehicles; 2) Letter of Authority; or 3) Purchase order.

**NOTE:** By prior arrangement with Motor Pool personnel, Standard Form 46, U.S. Government Motor Vehicle Operator's Identification Card, can be used to obtain a vehicle in the local area.

Employees in travel status for a short period with an official travel authorization specifically authorizing the use of Government-owned vehicles and a valid state, District of Columbia, or commonwealth operator's permit are not required to have an SF 46 to obtain motor pool vehicles.

**OPERATOR RESPONSIBILITY**—As provided by law, the use of Government-owned vehicles is restricted to official purposes only. The operator of an interagency motor pool vehicle is responsible for the proper use, servicing, and protection of the vehicle in his custody and for reporting any accidents in which the vehicle is involved. Necessary operating and servicing instructions are in the Operator's Packet in each motor pool vehicle.

# OFFICE OF PERSONAL PROPERTY DISPOSAL

Federal Supply's Office of Personal Property Disposal is responsible for assisting in the reutilization and sale of Government property no longer needed by owning agencies and for developing sources for rehabilitation of this property.

Through the Property Rehabilitation Program, FSS provides for the maintenance, repair, rehabilitation, and

reclamation of in-use and excess personal property. GSA awards competitively advertised contracts to over 2,000 small business firms, including minority-owned firms, to perform these maintenance and repair services.

These and other Personal Property Disposal services are available through GSA regional offices by contacting the FSS Personal Property Division.

## PUBLICATIONS

Production of informative publications is another service provided by FSS. These publications—listed on page iii and iv of the 1975 GSA Supply Catalog, Volume 1—are available to authorized users without charge by mailing a completed GSA Form 457 (FSS Publications Mailing List Application) to GSA's Centralized Mailing

Lists Services (CMLS), Region 8. Forms may be obtained from CMLS by calling FTS: 234-4195 or by writing to:

General Services Administration  
Centralized Mailing Lists Services  
Building 41, Denver Federal Center  
Denver, Colorado 80225

## Selling Programs

The Federal Supply Service has four selling programs through which some \$2 billion in goods and services is provided to Government agencies annually. They include:

- Self-Service Stores (See Services, page v)
- FSS Stock Program
- Federal Supply Schedules Program
- Special Buying Program

## FSS STOCK PROGRAM

The Federal Supply Service maintains a \$200 million inventory of goods which it distributes through 22 supply depots and 72 Self-Service Stores. In order to manage and control the thousands of items contained in the GSA system, items are assigned a 13-digit National Stock Number (NSN) which classifies each one into a class of similar items, and these classes, in turn, into commodity groups. The NSN must be used when ordering any item from the stock program.

Requisitions are processed in their respective regional offices, and most are filled with items stored in

the supply depots. These items have been purchased in accordance with carefully developed criteria and a stringent quality control program. (For ordering information, refer to the section on Requisitions.)

**NOTE:** These procedures apply to GSA-managed items only. Items managed by Defense Logistics Agency (DLA) are identified by "R" in the NSN index in this catalog. A list of the affected Defense Supply Centers and the classes of items being transferred to each is on page xvi.

## FEDERAL SUPPLY SCHEDULES PROGRAM

The Federal Supply Schedules Program provides Federal civilian agencies with a wide variety of supplies and services not obtainable through the stock program. It is designed to allow Government agencies the option of ordering standard commercial items in small quantities, while still enjoying discounts associated with volume buying. The Schedules Program accounts for the largest proportion of FSS sales—in excess of a billion dollars annually.

Under the Schedules Program, GSA enters into contracts with commercial firms to provide supplies and services at stated prices for given periods of time. Federal Supply Schedules are published to provide ordering data for these contracts. Schedules are made on the basis of either single or multiple awards. Under multiple-award schedules, several contractors supply comparable items for delivery to the same geographic area. In such cases, contractor publications must be used with the

# FEDERAL SUPPLY SCHEDULES PROGRAM—Continued

schedule to determine the characteristics and prices of the items involved. Some competitive-award schedules have illustrative contractor publications which may be helpful in selecting items.

Schedules contain the names and addresses of the contractors, delivery or shipping time, prices, and other ordering information (such as the minimum and maximum dollar limitations on the amount that may be purchased under one order). Customer agencies place orders directly with the contractors. Contractors deliver the orders to the agencies, whose ordering offices pay promptly upon receipt of the proper documentation.

The schedule states whether GSA provides source inspection of the merchandise or if inspection is the responsibility of the receiving agency.

Each schedule contains a provision which identifies specific agencies, in designated geographic areas, that are required to use the established contracts as mandatory users. Use of schedules is optional for agencies authorized to purchase through GSA, in accordance with the "nonmandatory users" provision; acceptance of such orders is optional with contractors, although they usually honor orders from nonmandatory users. Most schedules are national in scope and include the 48 contiguous states and the District of Columbia. Hawaii, Alaska, and the Commonwealth of Puerto Rico also may be included. FSS also provides regional schedules for

supplies and services available for specific geographic areas.

Improved Federal Supply Schedules Program, Volumes 3 and 4 of the GSA Supply Catalog, is an ordering system incorporating selected competitive-award schedules. Under this system, agencies submit requisitions to GSA, and items are shipped from the contractor to the consignee. GSA pays the contractor and bills the agency.

To obtain Federal Supply Schedules Program publications, enter the applicable mailing code on GSA Form 457 and send it to the GSA Centralized Mailing Lists Services (CMLS) in Denver, Colorado. Call or write to CMLS for copies of the form. Emergency requests for copies of schedules should be ordered from:

GSA—CMLS (8FFS)  
Denver, CO 80225  
Telephone: FTS: 234-4195

**NOTE:** FSS has established an Information Center to answer general queries on the Federal Supply Schedules Program. The telephone number is FTS: 557-8177. Military activities may use AUTOVON 225-9684 to call the Information Center. For technical information on contracts in schedules, write or call the contracting officer shown under the ordering instructions in each schedule.

## SPECIAL BUYING PROGRAM

FSS also provides a service which allows an agency to obtain items not contained in either the stock or Schedules Program. Through the Special Buying Program, FSS

can procure a definite quantity of items or items with a known recurring need, and have the order sent directly to the requisitioning agency.

# Requisitioning and Delivery

**NOTE:** The procedures outlined in this section apply to GSA-managed items only. Items managed by Defense Logistics Agency (DLA) are identified by "R" in the NSN

index in this catalog. A list of the affected Defense Supply Centers and the classes of items being transferred to each is on page xvi.

## REQUISITIONS

The Federal Standard Requisitioning and Issue Procedures System (FEDSTRIP), provides the basis for processing civil agency requisitions through the use of automatic data processing equipment (ADPE). FEDSTRIP, which is compatible with the Department of Defense's MILSTRIP, has four primary functions:

- (1) Processing both single and multiline manually or machine-prepared requisitions or proposed returns of items purchased from GSA;
- (2) Requesting and receiving status information on requisitions in process;
- (3) Filling orders under a standard priority system;
- (4) Utilizing pre-established codes to represent information contained on normal requisitions.

Standard Form 344 (Multiuse Standard Requisitioning/Issue System Document) may be used as a requisition, followup, or cancellation for any given order. SF 344 can be ordered through GSA and is listed on page 270 of the October 1975 GSA Supply Catalog, Volume 1. Emergency orders, however, may be telephoned to GSA if the customer has complete FEDSTRIP/MILSTRIP ordering information. In these cases, no confirming requisition is to be submitted. Additional information, including explanations of the various FEDSTRIP forms and codes, is contained in the FEDSTRIP Operating Guide (mailing code OFOG-0008) and may be obtained from the GSA Centralized Mailing Lists Services (CMLS), Denver, Colorado, 80225, telephone FTS: 234-4195.

## DELIVERIES

For most deliveries, GSA selects the mode of transportation and ships to the location specified in an agency's order on an f.o.b. destination. The f.o.b. destination includes payment of line haul transportation charges, but does not include payment of detention, redelivery, storage, consignment, extra labor for unloading, or any charges caused by the consignee and not authorized by GSA. Where approved, GSA movement documents (GBL) will authorize inside delivery service at GSA expense. Inside delivery service does not include payment for extra labor to unload at destination. When it is more economical to the Government, deliveries may be made directly to the customer agency from the supplier. Questions concerning merchandise received by direct delivery should be referred to the GSA regional office which directed the shipment.

**COMPLAINTS**—Shipments should be verified for damage, shortage, or overage, and to insure that correct items have been received. If any of these problems occur, submit SF 361 and/or SF 363 for transportation

discrepancies, or SF 364 for shipping (item) discrepancies to the GSA regional office which made or directed the shipment (forms on page 270 of the October 1975 GSA Supply Catalog, Volume 1).

When the quality of items ordered does not satisfy a specific requirement, the ordering office should notify the GSA regional office in the area in which the material is located. For these complaints, use SF 368, Quality Deficiency Report (page 270, Volume 1).

Merchandise returns may be authorized by GSA for errors in requisitioning or shipping, frustrations in overseas shipments, or discontinued need for the item.

Personnel considering merchandise returns must comply with the regulations cited in the FEDSTRIP Operating Guide and their own agency directives, and must have GSA approval before returning items.

**Unneeded Stock Items (GSA Credit Returns Program, FPMR 101-27.5).** See GSA Supply Catalog, Volume 1, October 1975, page lxxxiii.

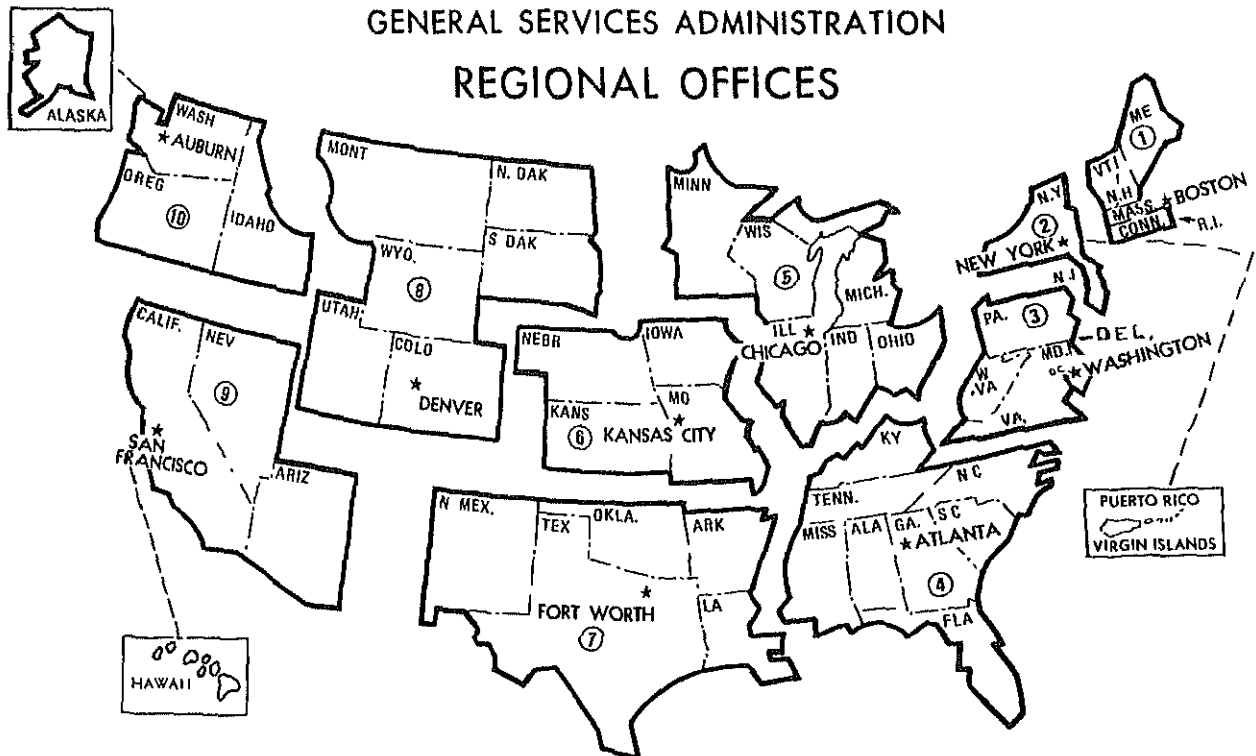

## GSA Regional Offices

GSA has ten regional offices serving defined geographic areas of the United States (see map). Listed are the addresses (mailing and cable) to which orders or requisitions and inquiries should be sent. Routing identifiers are listed for the convenience of ordering personnel in transmitting requisitions, followup inquiries, or cancellations in FEDSTRIP/MILSTRIP format. Emergency telephone numbers include those for normal working hours, domestic and export orders, and off-duty hours including weekends and holidays.

Orders should be submitted to the GSA regional office supporting the geographic area in which the requisitioner is located, unless the requisitioning agency or Federal Supply Service officials direct otherwise.

**NOTE:** The foregoing procedures apply to GSA-managed items only. Other items, managed by Defense Logistics Agency (DLA), are identified by "R" in the NSN index in this catalog. A list of the affected Defense Supply Centers and the classes of items assigned to each is on page xvi.

# Customer Service Representative Program

Customer Service Representatives (CSR's) are assigned to each Federal Supply Service (FSS) regional office and in certain other locations. CSR's are available to provide seminars for either specific or general discussion on any phase of support offered by FSS. They make periodic liaison visits to customer installations within their areas of responsibility and can make special visits when conditions warrant. For routine information on orders placed, or submission of emergency orders, see page xiv for applicable telephone numbers.

# PRICE LIST AND NATIONAL STOCK NUMBER INDEX

This is a listing in National Stock Number (NSN) sequence of some GSA centrally managed, stocked, and issued items available from GSA supply distribution facilities. Also listed are items transferred to Defense Logistics Agency (DLA) for Government-wide management, effective July 1, 1977.

Page/column numbers are provided for items appearing in Section 2, "Descriptive and Illustrative," of the October 1975 GSA Supply Catalog, Volume 1. **Page/column numbers in bold-face type refer to new items in Changes to Section 2 in this Volume 2.**

**PRICES.**—Prices quoted in this volume for GSA-managed items are fixed, and will remain as such until notice is given. Prices are on an f.o.b. destination basis

for surface transportation to consignees in the coterminous United States, Hawaii, Puerto Rico, the Virgin Islands, and those portions of Alaska designated in FPMR E-130. Requirements for premium transportation must be paid for by the ordering activity. Prices in this catalog are applicable for export orders, except that transportation from the port of exportation to the consignee, and packing will be charged to the ordering agency.

**UNIT OF ISSUE (U/I) DESIGNATIONS.**—The designations shown in the table below are used in this index for the units of issue.

These designations should be used on all FEDSTRIP/MILSTRIP requisitions submitted to GSA or DLA:
